—In my last I promised to give you information respecting "Jim," the brew fellow as will be seen; Jim did not forget the cane, but some time after he called on me and says, "Mr. don't you worry, cane, me got good one done." I buy um, me take two gal, a bargain was made, but Jim would hold the rum, so he says, "I can jug, no, lend um, pall, tin, tin pall hanging over head, rum taken down, the rum put in jug, up the pall, 'now me buy get cane' and started off alone after him, but not before Jim soon got out of sight. I am afraid the merchant found a Christian in it, who refused to give him the cane, so Jim was left.

... of some weeks Jim made
at the store and when asked
expressed great surprise that
had not got it; Jim was then

CAVENWORTH, July 27th, 1869.

Death is the largest city but

is and San Francisco. It is situated on the west bank of the river, in a location that must be a large tract of country, extending to the Missouri River on the west. The site of this present town, was built in 1855. In that year was 270, and census was taken, which number of inhabitants was 81. It is estimated that in another 10 years it will contain 100,000 inhabitants. The population consists chiefly of Americans. The 'colored element' has a large share to the population. There are in Leavenworth

and 24 Schools. The most picturesque are the Roman Catholic churches, the finest structure being the Cathedral of the Pacific; the Baptist Church, the Episcopal and the Congregational churches, the Jewish Synagogue, the Polish Synagogue, the Presbyterian and the Methodist churches. The population is over forty teachers, and the city is fully four thousand students. The streets run north and south. Those running east are called after the names of the states, and those running north and south, after the names of the cities, &c. There are several parks, the largest being the Park of the Pacific, and the Continental, at which the price of a day "only" is charged. The staple drink is champagne. Good whiskey

Twenty-five cents, good cheer. There are 158 saloons at which liquor is sold, and especially a Canadian. Amongst civilized society and he but amazed at the general morality shown by the people the day the 'whiskey war' is denominated, are called in the evening a great chivalry. The merchant, book-keepers, and students, instead of spending time with their families, are sitting in seven up or cabbages, are not without their own seven until eleven, and

FARM FOR SALE.

THE undersigned offers for sale on credit his farm, which is situated on Brighton Gravel Road, being the south-east corner of Lot 3, in the 9th con. of Brighton, containing 75 acres, sixty of which are under good cultivation, well fenced with cedar and pine wood. There is also a large BRICK DWELLING and outbuildings, a large BARN 32 x 50; an excellent Orchard yielding 20 bushels of grafted fruit yearly, and all the necessaries for farm culture.

The title is indisputable and free of encumbrance.

This farm is in the best state of cultivation, and is a desirable residence for a man, and will be sold at a sacrifice that the subscriber may be able to secure a bargain.

For further particulars apply to

Two Steamships Wrecked.

r. Jones, N. B., Aug. 10.—The steamship copairs' from Montreal for London, was the last one to leave on Monday evening.

The passengers and crew were all saved and have arrived at this port. The ship "Germania" was lost near Trepanco on Saturday. The passengers and crew were successfully landed there, and a tug had come to their assistance.

LOSS OF THE GERMANIA.

New York, Aug. 10.—The steamship "Germania," from New York on the 3rd inst., for Hamburg, was lost at sea. Crew and passengers saved, and probably the mail also. No certain news has been received from the ship.

The following dispatch has been received in this city.—St. John, Newfoundland, 231 p. m. Aug. 10.—On Sunday morning, 10th inst., the steamship Germania was wrecked on the rocks. The passengers and crew are still at the mercy of the wreck. A tug boat left this morning to bring what she can carry to land.

(Signed)

LATER—THE 'CAMBILIA' GOES TO THE ASSISTANCE OF THE 'GERMANIA'.
New York, Aug. 11.—The Agents of the Hamburg Line have despatched the steamer 'Cambilia' to the assistance of the wrecked steamer 'Germania'. The 'Cambilia' was about to leave for Europe with a full cargo, but she discharged and sailed this evening for Newfoundland.

From the Oil Regions.
The oil business is looking up, and we are glad to hear such cheering accounts of the prospects in the Ennskliekt regions. The *Free Press* says:—
"The successful treatment and shipment of

fluence on the development of Petrolia. More attention is being paid to the rig and working of the wells; matters are looked more and more from the standpoint of the producer; production is increasing. In addition to the great many wells are going down, and considerable enquiry is afoot for new territory by those who contemplate sinking fresh holes. The oil business is not so much a matter out of the distressing conditions. Men of capital have got hold of the interest at both ends, and, as a necessary consequence, matters are being pushed. There will be further developments; no more depressed spirits and long faces; no any thing of the kind. The Canadian oil fields are empty pockets. The Canadian oil business is now upon a main, because a legitimate, basis.

more holes, pump up more oil, erect more refineries, make more barrels, ship more burning oil and yet we more again. The world is as large as it is round and the brain oils of this continent are being sought after by all parts of the world that are even now removing above the surface of the earth the last vestige of capitalism. The Canadian oil industry appears to be inexhaustible, and the oil in the manufactured state buras longer, looks and smells better than even the best Pennsylvanian, and cannot expel under any ordinary circumstances. We fully expect to see the attention of more Canadian oil firms directed to Canada as the best field for oil enterprise.

is consoled to be the best preparation for the cure of cuts, burns, wounds, scalds, and cutaneous diseases and eruptions generally. In places distant from medical aid it will be found invaluable, and in the surgery it should always be at hand.

LAND SLIDE.—A telegram from Hudson, N. Y., of the 7th says: "The town of Stockport, in this county, has been the scene of considerable excitement during the past week, on account of the gigantic landslide, and thousands have visited the spot. The slide occurred on the morning of over 90 feet, and the surface, as indicated by trees and fences buried, a distance of over

HEALTH IS STRENGTH.—To prevent or conquer disease is one of the grandest attainments ever aimed at by man; and Bryan's Cough Cure will surely cure colds, coughs, colds, tickling in the throat and pulmonary complaints, as war and pestilence will destroy. Severe colds if not attended to soon or later lead to incurable consumption, and the strength of the strongest soon falls if neglected. The remedy and best means of curing colds, coughs and pulmonary complaints is "Bryan's Pulmonic Wafers," which have been thoroughly tried for the last twenty years, and never been known to fail. Singers and public speakers will also derive great

INCENDIARY FIRES—Montreal had three incendiary fires on Monday, and we now have an account of an attempt to burn the St. John's barracks. The western wing of the garrison house, and two store rooms containing stores of clothing, were destroyed by fire on Monday. Loss \$12,000. The Montreal fire brigade was sent for but the fire was subdued before the train started. The *Gazette* says: "The St. John's barracks was just about to be handed over to the Dominion Government when the fire broke out. The building is of wood and will consequently fall upon the Imperial Government. It was very recently occupied by two companies of the Royal Canadian

and was in charge of Captain Eliot, late of H. M. 15th Regiment, Acting Barrack master. They were built about thirty years ago and could easily accommodate 200 to 300 men. The barracks are situated on the brink of the river, Richelieu, and within four or five hundred yards of the town."

THE SOUL.—What makes the soul so valuable? It is immortality. When endless years have run on, the soul will exist; and what an amazing thought! Will it never tire? Will the eternal pulsation of sublimated existence never grow heavy? Will the wheel never be broken at the eastern rim? Never! The soul is the enduring the eternal. The heart's wheel rolls on ceaselessly.

monse from age, neither will the soul be come decrepit; and in all the multitudes of heaven not one shall be seen leaning upon his staff for very old age! What like the angels never grow old! To be always the same through countless centuries is when first we die! But cannot we annihilate herself! Oh no! the soul's literal suicide cannot be performed! No Judas Iscariot can find a tree, or putting wall which in Gehenna's cavern, and burning fields, may offer him suspension between life and death. The soul must live on.—*Rev. Dr. Andrews.*

IRELAND.—A WOMAN BAINED MOOR, who

to takelarge of a pauper family which had to be removed to Silgo, has had a narrow escape of losing her life. She accompanied the officer and another man on a boat to the island. When the party were returning, they were set upon by a party of Irishmen armed with stones, and the woman was very severely hurt. On the matter being reported under the notice of the police, the officer pointed out that the woman was a yellow flower in the neighbourhood, and this, on the Twelfth, was interpreted by the Roman Catholics of the neighbourhood as a proof of Jangas sympathy. The police told their Scottish colleagues that such things were common in the north of Ireland, and they were anxious of bringing the matter to the attention of the British authorities.

A FEMALE FEMINIST'S OATH—A day or two ago, among other "sensational" documents found on the person of Patrick Hughes, who was brought before the magistrates at Dublin on a charge of being a Fenian, was the following form signed by a woman, a female Fenian, who signed, "Your sincere friend, Nanny Egan"—"I do hereby swear (sic) that I will attend to the utmost of my power all the members of the Fenian Brotherhood which has established in Ireland a good and just

the sick and wounded in hospital—at the battle fields of America, and at the colors of our own native land. Here's to the country first, and then to Grand Old Woman and to time to talk. Here's long may the Great Republic smoo, May Nagle who sold them and Judge Keogh who tried them—may the light of heaven never shine upon them—may the heartbeats of hell be their punishment and their doom. The police offense charged against Hughes, who was remanded, was that he threatened to blow up the house of a policeman with whom he had lodged, and also said he could get three hundred men in Dublin to blow the heads off all the members of the metropolitan force.

Ottawa this week with the expectation of joining His Excellency at Halifax, and receiving His Royal Highness Prince Arthur, who, it is supposed will arrive at Halifax on the 22nd inst.

From Reddiver.

The *Advertiser* says the Rev. Dr. Davidson of Glasgow, passed through London on Wednesday night on his return from the River, and reports that eighty miles of the coast had been visited. There is a dense cloud flying northwards, and they reach the Red River this season, the first time since the late war. Dr. Davidson hopes that they may not get to that quarter, from the fact that the north-east wind has changed round to the north, and is estimated from that quarter for three or four days. If it is a storm, the fishermen never get against the wind.

The *Advertiser* says the Rev. Dr. Davidson of Glasgow, passed through London on Wednesday night on his return from the River, and reports that eighty miles of the coast had been visited. There is a dense cloud flying northwards, and they reach the Red River this season, the first time since the late war. Dr. Davidson hopes that they may not get to that quarter, from the fact that the north-east wind has changed round to the north, and is estimated from that quarter for three or four days. If it is a storm, the fishermen never get against the wind.

[illegible]

A correspondent of the *Toronto Telegram* has discovered that there is really a "great" deal of wheat in the Province of the Intercolonial Railway. The *Montreal Gazette* says:—We know this before, but we have not known it in the right way. In the East through interested motives, we deserted the country that we are glad to see is now being reclaimed by the wheat correspondent says of the "great" wheat:

THE AGRICULTURAL CAPABILITIES OF THE PROVINCE OF NEW BRUNSWICK.

It is estimated that the agricultural capacity of this part of the country has never been properly understood. The leading agricultural province of the Dominion is not the Province of Ontario, as is generally supposed, but the Province of New Brunswick. The Province of New Brunswick is the only one in the Dominion that has a large area of land under cultivation. It is the only one that has a large area of land under cultivation. It is the only one that has a large area of land under cultivation.

[illegible]

utilization exceeding 100 percent, and the naturally productive. There is a large area of land in the north that is not perfectly correct, and there can be no doubt that after the Intercolonial Railway is completed, the country will be brought into the country into, and produce a market for its surplus production. The land is very fertile, and the local traffic upon the railway will be much greater than any other little bit of land in the country.

PROBABLY TRAFFIC FOR THE LINE.

The traffic in fish, upon which I shall be something to say in my next letter, is very important, and the weight cannot be great. The lumber

they could better their condition in the north, and the lumber trade is one that they owed to the high price of the necessary goods, and they made a living out of it. The lumber trade is one that raises the means, less time in returning to the north.

DOESN'T WANT TO RECEIVE HIM.—The Residents of Halifax are evidently not disposed to receive him, and the public reception. The public meeting at Halifax which was convened to make arrangements for the reception of the Duke of Cornwall in a row of the first water. The Residents of Halifax are evidently not disposed to receive him, and the public reception. The Residents of Halifax are evidently not disposed to receive him, and the public reception.

DEMANDING CONFEDERATION was proposed, though not carried, owing to the confusion. The Residents of Halifax are evidently not disposed to receive him, and the public reception. The Residents of Halifax are evidently not disposed to receive him, and the public reception.

JOURNALS are due to place.

[illegible]

grain, potatoes, and about 700 acres of spring wheat. The first, as any one can see, is a very small farm. The second, on the other hand, has 80 acres of potatoes, about 200 acres of oats, and a large number of acres of corn. It is a very large farm, and it is very profitable. It is a very good example of what the land is capable of by proper cultivation, and there can be no doubt that the people of Cuba are very capable of making a splendid farming country out of the large areas.

The authorities of Yaguajay and Espale report that the first 100 acres of land have been converted into a very good farm, and that the second 100 acres have been converted into a very good farm. The third 100 acres have been converted into a very good farm, and the fourth 100 acres have been converted into a very good farm. The fifth 100 acres have been converted into a very good farm, and the sixth 100 acres have been converted into a very good farm. The seventh 100 acres have been converted into a very good farm, and the eighth 100 acres have been converted into a very good farm. The ninth 100 acres have been converted into a very good farm, and the tenth 100 acres have been converted into a very good farm. The eleventh 100 acres have been converted into a very good farm, and the twelfth 100 acres have been converted into a very good farm. The thirteenth 100 acres have been converted into a very good farm, and the fourteenth 100 acres have been converted into a very good farm. The fifteenth 100 acres have been converted into a very good farm, and the sixteenth 100 acres have been converted into a very good farm. The seventeenth 100 acres have been converted into a very good farm, and the eighteenth 100 acres have been converted into a very good farm. The nineteenth 100 acres have been converted into a very good farm, and the twentieth 100 acres have been converted into a very good farm. The twenty-first 100 acres have been converted into a very good farm, and the twenty-second 100 acres have been converted into a very good farm. The twenty-third 100 acres have been converted into a very good farm, and the twenty-fourth 100 acres have been converted into a very good farm. The twenty-fifth 100 acres have been converted into a very good farm, and the twenty-sixth 100 acres have been converted into a very good farm. The twenty-seventh 100 acres have been converted into a very good farm, and the twenty-eighth 100 acres have been converted into a very good farm. The twenty-ninth 100 acres have been converted into a very good farm, and the thirtieth 100 acres have been converted into a very good farm. The thirty-first 100 acres have been converted into a very good farm, and the thirty-second 100 acres have been converted into a very good farm. The thirty-third 100 acres have been converted into a very good farm, and the thirty-fourth 100 acres have been converted into a very good farm. The thirty-fifth 100 acres have been converted into a very good farm, and the thirty-sixth 100 acres have been converted into a very good farm. The thirty-seventh 100 acres have been converted into a very good farm, and the thirty-eighth 100 acres have been converted into a very good farm. The thirty-ninth 100 acres have been converted into a very good farm, and the fortieth 100 acres have been converted into a very good farm. The forty-first 100 acres have been converted into a very good farm, and the forty-second 100 acres have been converted into a very good farm. The forty-third 100 acres have been converted into a very good farm, and the forty-fourth 100 acres have been converted into a very good farm. The forty-fifth 100 acres have been converted into a very good farm, and the forty-sixth 100 acres have been converted into a very good farm. The forty-seventh 100 acres have been converted into a very good farm, and the forty-eighth 100 acres have been converted into a very good farm. The forty-ninth 100 acres have been converted into a very good farm, and the fiftieth 100 acres have been converted into a very good farm. The fifty-first 100 acres have been converted into a very good farm, and the fifty-second 100 acres have been converted into a very good farm. The fifty-third 100 acres have been converted into a very good farm, and the fifty-fourth 100 acres have been converted into a very good farm. The fifty-fifth 100 acres have been converted into a very good farm, and the fifty-sixth 100 acres have been converted into a very good farm. The fifty-seventh 100 acres have been converted into a very good farm, and the fifty-eighth 100 acres have been converted into a very good farm. The fifty-ninth 100 acres have been converted into a very good farm, and the sixtieth 100 acres have been converted into a very good farm. The sixty-first 100 acres have been converted into a very good farm, and the sixty-second 100 acres have been converted into a very good farm. The sixty-third 100 acres have been converted into a very good farm, and the sixty-fourth 100 acres have been converted into a very good farm. The sixty-fifth 100 acres have been converted into a very good farm, and the sixty-sixth 100 acres have been converted into a very good farm. The sixty-seventh 100 acres have been converted into a very good farm, and the sixty-eighth 100 acres have been converted into a very good farm. The sixty-ninth 100 acres have been converted into a very good farm, and the seventieth 100 acres have been converted into a very good farm. The seventy-first 100 acres have been converted into a very good farm, and the seventy-second 100 acres have been converted into a very good farm. The seventy-third 100 acres have been converted into a very good farm, and the seventy-fourth 100 acres have been converted into a very good farm. The seventy-fifth 100 acres have been converted into a very good farm, and the seventy-sixth 100 acres have been converted into a very good farm. The seventy-seventh 100 acres have been converted into a very good farm, and the seventy-eighth 100 acres have been converted into a very good farm. The seventy-ninth 100 acres have been converted into a very good farm, and the eightieth 100 acres have been converted into a very good farm. The eighty-first 100 acres have been converted into a very good farm, and the eighty-second 100 acres have been converted into a very good farm. The eighty-third 100 acres have been converted into a very good farm, and the eighty-fourth 100 acres have been converted into a very good farm. The eighty-fifth 100 acres have been converted into a very good farm, and the eighty-sixth 100 acres have been converted into a very good farm. The eighty-seventh 100 acres have been converted into a very good farm, and the eighty-eighth 100 acres have been converted into a very good farm. The eighty-ninth 100 acres have been converted into a very good farm, and the ninetieth 100 acres have been converted into a very good farm. The ninety-first 100 acres have been converted into a very good farm, and the ninety-second 100 acres have been converted into a very good farm. The ninety-third 100 acres have been converted into a very good farm, and the ninety-fourth 100 acres have been converted into a very good farm. The ninety-fifth 100 acres have been converted into a very good farm, and the ninety-sixth 100 acres have been converted into a very good farm. The ninety-seventh 100 acres have been converted into a very good farm, and the ninety-eighth 100 acres have been converted into a very good farm. The ninety-ninth 100 acres have been converted into a very good farm, and the one hundredth 100 acres have been converted into a very good farm.

and respectability to the people of Belleville and County of Hastings and Prince Edward, that he resumed his practice among them, and in how tremendously successful a manner, is shown by the following extracts from the letters of his grateful patients, in their worst form: Consumption, its related stages with Effusion remittent, Consumption is long as it is incurable, and the patient is in the last stages. Gravel, Dropsy of the chest, Abdominal Drops, General Dropsy, &c., patients who have been tapped several times are cured. *Under Dr. James' treatment* I was cured of my Rheumatism, Dropsy of the chest, Dropsy, and Liver disease, and discharges of women and children, cramps of Youth, Nervous Indigestion, Female Dropsy, &c. I was cured of my Rheumatism, and a sore cure is guaranteed in every case. Also, Cures cured without cutting, and little pain. Diseases which have been considered incurable, are cured. I am rapidly yielding to his treatment, as his grateful patients are willing to testify. No Colonel, No Mercury, no blood-letting, no medicine.

These Pills, after they have been pronounced by the medical profession of one and twenty years' standing, insensible, and when patients are partially awake, to now being restored to sound health by Dr. Jansen.

With this "cure" remedies Consumption is no longer an incurable disease. When patients have lost the use of one entire Lung they can be restored to good health, and such persons can attend to their occupations with great comfort to themselves for many years, and ultimately die of other diseases.

Office:—in Nations Hall, Front Street Belleville.
Office hours from 11 a. m. to 4 p. m. No charge for consultation.

BELL FOUNDRY.

THE Subscribers are still manufacturing Steel Amalgum Bells, at one third the cost of the Brass Composition Bells, and warranted to stand for one year. As there

are about 1,000 or our some manufacturers.
Sells now in use, some of which have been
used for over seven years, they are well
known, and wherever they have been intro-
duced, our patrons will certify that for
cheapness, durability, and force of tone, they
cannot be surpassed.

STOP AND SEE!

THE following remarks on testimonials of most wonderful and pure military cure in Canada, by the **GREAT INDIAN REMEDY**. They are stern undeniable and indisputable facts, sufficient to convince the

most essential that the Great Mucilage Compound
prepared after for ages is now accessible in this

Great Shoshonees Remedy!

For diseases of the Throat, Lungs, Liver, Digestive
Organs, Kidneys, &c., as well as Scrofula, the various
Skin Diseases, Humors, and all diseases arising from
impurities of the Blood, we holdly state that this Great
Mucilage Compound is superior to all other remedies
ever seen a cure as that in the person of Albinus Blum, of
Brighton, Ohio, of Consumption, or that of Peter G.
W. Miller, of Kearsburg, Ohio, of Consumption, or that
of John H. Brown, of Kearsburg, Ohio, of Consumption,
and Liver Complaint, or that of John H. Brown, of
Napoleon, Ohio, of Consumption, who had actually been
declared for years to be incurable, and that he was
and is now well. Doctors of other countries might be
puzzled had we space.

Call at the Drug Store and get Circular in the
 reasonable certificate on the Great Remedy
 Remedy and Pile, and satisfy yourselves.

Price of the Remedy in Large Pints, \$1.

To Messrs. CHAMBERLAIN & SILL, Conway P
O. County of Lebnoc, Ontario, Canada.
MADOC, County of Hastings,
Province of Ontario, Feb. 9th. 1899.

This is to certify that during the winter of
1906 I was taken with a weakness of the ancles,
which gradually, during the spring of 1897, ex-
tended to my knees, and on up to my hips, and
I became so weak that I could not walk.
For about

two years, while this weakness was coming on me, and afterwards, I sought medical advice, employing, at different times, three doctors, and medicines of different kinds prescribed by friends, but of no avail. I continued to get weaker and weaker, until the summer of 1881, when I was induced to try the great Shoshonee Remedy by reading the cures performed, in pamphlet. At this time I had begun to feel the weakness in my hands; in fact I was getting almost helpless. I have taken two bottles of the Shoshonee Remedy, and I feel that I am now entirely restored to health. I never expected to get better, but simply tried the medicine as a sort of forlorn hope. This case of mine was not a

private case, but known to all my neighbors and friends; and to any one afflicted as I was, I have only to say try Dr. Shoshonette Remedy. I believe it will cure you.

MARY ANN DOUGHTY.

Sworn to before me at Madoc, County of Hastings, this ninth day of February, 1909.

A. F. WOOD, J. F. &c.

I hereby certify that I have known Mrs. Mary Ann Doughty for the last fifteen years; she is a woman of probity and of good character; her behavior is dour and since her illness. I believe her certificate to be true in every particular. I know that while ill her case was declared hopeless; and I know that she has, since her recovery, always attributed her recovery to

Wardens of the County of Hastings, Province of Ontario, Dominion of Canada.

The Intelligencer.

TREASURER'S SALE OF LANDS IN Arrears for Taxes.

PROVINCE OF ONTARIO, By virtue of a Warrant issued by the Warden of the County of Hastings, bearing date the Twenty-eighth day of July, one thousand eight hundred and sixty-nine, and to be directed and delivered for the collection of the Arrears of Taxes due for five years and over, upon the lands hereinafter mentioned and described, as being in the County of Hastings. These are therefore to give notice, that unless the arrears and costs are sooner paid, I shall, on

FRIDAY, the Fifth day of November next.

At the hour of TEN o'clock in the FORENOON, at the Court House in the Town of Belleville, proceed to sell by Public Auction, the said lands, or as much thereof as may be sufficient to discharge such arrears of Taxes, and all lawful charges incurred.

Concession.	Lot.	Acres.	Taxes.	Costs and Fees.	Patented.
